**Charlton & Jenrick**<sup>LTD</sup>

*Best of British fires, fireplaces & stoves* Issue 1

*Welcome to the new Charlton & Jenrick range of contemporary and traditional fireplaces. As a leading UK manufacturer and supplier we take great pride in the design and manufacture of our fireplaces, fires and wood burning stoves. The end result is a stunning range of fireplaces that work, as designed, in harmony with a wide choice of fires and multi-fuel stoves.*

*All the fireplaces in this brochure are designed and manufactured with quality in mind using the best available Limestone, American White Oak & Black Walnut. On each page you will find swatches of the available finishes to the fireplace so you can see the full range on offer. However, we believe to fully understand these designs and finishes you need to see the products in the flesh. We always recommend that you visit a Charlton & Jenrick authorised showroom to see the fireplaces in their true glory.*

## Casts

## Chirbury Performance Cast Combination

The Performance Combo cast is designed to take all open and glass fronted gas fires from Charlton & Jenrick and is a patented system that allows quick and easy access to your fire for servicing. It gives the look of a traditional cast but the benefits of a highly efficient gas fire.

## Back Panel Options

## Casts

### Cast your imagination open to the possibilities!

The Chirbury high performance cast range is now available with a large number of options.

To order the cast you require simply follow the 3 steps below:

- Step 1:** Choose the Back Panel you require (either Burnished or Highlighted) Arch
- Step 2:** Choose from one of the four canopy options
- Step 3:** Choose one of the three options of frets.

## Canopy Options

## Fret Options

## 16" Electric Fires

### The Ecoflame™

Setting a new standard in low energy electric fires. A realistic flame effect, creating the perfect ambience for any room. Shown above is the Eco Flame 16" electric fire with Elite Satin Fascia in the Fireline Leighton surround.

# 16" Electric Fires

Building on the success of our popular Electron fire, the new Paragon Ecoflame gives an even more realistic flame effect and offers a choice of trims and frets.

- Ultra low-energy LED lighting flame effect uses only 4W
- Live powered animated flame effect lighting on fireback, inside firebox and under fuel bed
- Choice of trims and frets in brass, black and chrome
- Choice of coal or pebble fuel effect included
- 1kW & 2kW fan heating with independent flame effect setting
- Thermostat control for energy saving and comfort
- Full remote control
- 16" x 22" inset fire, Fits 3" (75mm) rebate
- Sets a new standard in design and aesthetics

All Charlton & Jenrick Ltd electric fires feature full remote control (handset designs vary according to fire model)

Above: Shown in brass Gate fret and brass Contrast trim.

Above: Shown in black Gate fret and brass Contrast trim.

Above: Shown in chrome Gate fret and chrome Contrast trim.

**Ecoflame™ flame effect uses 95% less energy than a conventional fire and 75% less than a low energy electric fire**

## 16" Electric Fires

### The Sensations with 3D Enviraflame™ technology

3D Enviraflame™ technology means that this realistic flame effect uses only 10% of the power of a conventional electric fire. Shown above in brushed stainless steel trim and Arc fret with the Fireline Faro surround.

# 16" Electric Fires

Here's a stunning effect with a lower carbon footprint; now you need never change a light bulb again.

With the Enviraflame system there are no light bulbs to fail, just ultra low-energy emitters – saving not only money, but the energy needed to make and transport the bulbs, to say nothing of the landfill from spent bulbs.

Above: Shown with Brass trim and Antique Wellington fret.

Above: Shown in Chrome trim and chrome Gate fret.

- Stunning 3D floating flame effect
- Low-energy 7W flame effect
- Flame effect still looks great wherever you are seated in the room
- No need for a glass panel between you and the 'flame'
- Enviraflame technology means that the flame effect only uses 10% of the power of a conventional electric fire! Kind on your pocket and the environment
- Remote control as standard
- Thermostatic fan heater with two settings – 750W and 1500W
- 3 fuel bed effect settings, adjustable to suit your mood
- Choice of trims and frets in brass, black and chrome
- Advanced slimline design means that the fire can be installed in any recess mantel with a 3" (75mm) rebate
- Complete with surface mounting spacer – for use on a flat wall without a mantel

See the fire working at [www.enviraflame.co.uk](http://www.enviraflame.co.uk)

All Charlton & Jenrick Ltd electric fires feature full remote control (handset designs vary according to fire model)

## Hang on the wall Electric Fires

### The Ecoflame™ wall-mounted

An ultra-sleek, modern, wall mounted, electric fire with the choice of a curved or flat glass front. The Ecoflame's realistic flame effect creates the perfect ambience for any room. Shown above with the curved glass front and log fuel bed.

Fuel beds available:

Above: Ecoflame shown with flat glass front and pebble fuel bed.

Enjoy the comfort and luxury of the new Ecoflame™ – simply plug in, switch on and warm up. The wall-mounted electric fire from Charlton and Jenrick is an ultra-modern fire packed with features and benefits.

This sleek, modern, 2kW wall-mounted electric fire is ideal for the more discerning customer. During its development, great attention has been paid to its quality and its specification. The Ecoflame™ is launched with a choice of flat or curved black glass, a fixed log or pebble fuel bed or the option to have no fuel bed at all, for an ultra-modern look. The Ecoflame™ is also very flexible and with heaters that blow from the side, it can be sited below a TV and even close to the carpet.

- Each fire comes with a choice of fuel bed – log or pebble
- 2 x 1kW independently selectable heaters that blow from the sides so it can be fitted below a TV and close to the carpet
- Variable brightness and colour flame effects
- LED back lighting (orange, white, blue or lightshow)
- Universal engine that accepts flat or curved fascias
- Superb bright flame effect that fills the large fire window
- Kettle plug for easy installation and servicing
- Full-feature remote control
- Separate wall-mounting bracket system for easy installation

## Hang on the wall Electric Fires

### Equinox

Shown in Black/Mirror Finish, with choice of fuel beds (logs and pebbles supplied), LED illuminated flame effect, 1KW and 2KW heat settings with thermostat control, variable brightness and colour flame effects (LED backlights in orange, white, blue and lightshow). Side blowing heaters allow fire fitting below TVs or close to the carpet, remote control supplied.

## Hang on the wall Electric Fires

### The Medi & Amara

Contemporary and stylish with unique features, designed to add a subtle ambience to your living room. Shown above is The Medi with flat glass front. All backlights are also available with the Medi fire. Unique features include subtle ambient backlighting and adjustable flame speed, to add an extra dimension of warmth. However, it's not just the contemporary looks that makes these fires stand out. Our dual heater fans are designed not only to warm your room, but to actually blow down, so the fire can be placed below a wall-mounted plasma TV.

Amara curved front with orange backlight

Amara curved front with blue backlight

- Ultra low-energy LED flame effect 7W-12W consumption
- 4 flame settings:
  - Bright orange flame with blue flicker
  - Bright orange flame
  - Medium orange flame and low orange flame
- 3 flame speeds – Slow/Medium/Fast
- 5 backlight settings – Off/Orange/Blue/Mixed colour/ Light show (cycles through the colours)
- Heater settings:
  - Off, right-hand side fan offering 0.75kW
  - Left-hand side fan offering 0.75kW
  - Both fans on offering 1.5kW
- Comes complete with a mixed box of opaque glass stones and natural cararra stones.
- Full remote control & manual back up switches on fire
- 1.5m white power cable, right-hand side entry
- 240v 13 amp input
- Complete with simple fixing kit including a full size wall template for ease of installation.
