

CHARLTON & JENRICK  
SINCE 1986

"We're excited to bring this cutting-edge product to our customers. The Luminosa 150 Electric Fire is not just about warmth, it's about creating a comfortable, sustainable living environment while using real flame technology. This innovative fire offers exceptional clarity in its flames, mesmerising sparking embers, and delicate wisps of smoke."

*Peter Mintoft,  
Managing Director of  
Charlton & Jenrick*

Charlton & Jenrick<sup>LTD</sup>

INTRODUCING THE

# Luminosa

150 ELECTRIC FIRE

WITH REAL FLAME  
TECHNOLOGY™

Charlton & Jenrick<sup>LTD</sup>

# The most realistic flames ever seen in electric fires.

**Designed to combine perfectly with a media wall, Luminosa 150 doesn't just add to your living space - it makes it.**

The Luminosa 150 electric fire is a stylish addition to any home, featuring embers and smoke in the flame effects with a pulsating log light, creating the ultimate in luxury electric fires.

## Features include:

- A 50% slimmer design than our nearest competitor
- Real Flame Technology™ provides life like flame clarity, like no other
- Optional pairing with LED backlights to bring your space to life
- Smart features that give you control over sound, warmth and colour
